

Septic and Well Notes for Cherry Run UMC

- On the below picture, there is a white roll with pink ribbon to the left marking the location of the well under the handicap ramp.
- To the right is a pink ribbon marking the location of the septic tank under the asphalt. (Likely the cleanout, which was covered over during the most recent coating of asphalt.)
- Parking lot created in 1980, according to county records.
- There appears to be approximately 31.5 feet between them.
